STUDENT RESEARCHER

Senior undergraduate student with internship experience transforming file types using python scripts and developing programming proficiency in students. Seeking opportunities to learn and apply data science concepts in an academic and industry setting.

EDUCATION AND TECHNICAL SKILLS

Elizabeth City State University • Elizabeth City, NC (May 2017)
Bachelor of Science, Computer Science • Overall GPA: 3.88/4.00

Programming langagues (Python • Java • Javascript • HTML/CSS) • Linux • Git Version Control
Operating Systems (Macintosh • Linux • Windows)

INTERNSHIP EXPERIENCE

NASA Langley Research Center • Hampton, VA (June 2016 – August 2016)

Minority University Research and Education Program (MUREP) Intern (June 2016 – August 2016)

- Investigated methods of locating, extracting, and ingesting a subset of documents from NTRS
- Documented the processes related to adding another collection to the Watson Content Analytics (WCA) tools.
- Wrote python scripts (one to transform CSV files to XML files, another to edit XML files from linux command line) to make a more efficient data pre-processing system.

Texas State University • San Marcos, TX (June 2015 – July 2015)

Research Experience for Undergraduates (REU) Intern (June 2015 – July 2015)

- Tasked with gathering android applications that had “bugs” (errors in application that cause issues for the users android smartphone) invoked by a specific “change”
- 2 applications were picked out of about 50 for a case study to understand the impact of the application as a whole

Indiana University Bloomington • Bloomington, IN (May 2014 – July 2014)

Research Experience for Undergraduates (REU) Intern (May 2014 – July 2014)

- Explored Django Web Development Framework Platform and implementation of its components such as views using python programming language and Bootstrap template on User management system

PUBLICATIONS

Yang, G., Do, Q., Che, M. *Regression test selection for Android Applications,* MOBILESoft, May 14-22, 2016
DOI: 10.1145/2897073.2897127

Hayden, L., Wood, J., *Update of the CERSER TeraScan Cataloguing System TeraScan Image Processing Scripts*, IEEE-IGARSS Conference, July 26-3, 2015
DOI: 10.1109/IGARSS.2015.7326029

LEADERSHIP ACTIVITES

Pi-Byte Computer Science and Mathematics Club – Elizabeth City, NC (August 2016 – May 2017)
The purpose of this club shall be to build a community of mathematical & computational thinkers and to promote an interest in mathematics and computer science while applying these concepts in real-life projects and outreach opportunities

President (August 2016 – May 2017)

- Presided over all meetings
- Coordinated club activities (such as trainings and seminars)
- Provided support leadership by establishing a climate of enthusiasm and concern
- Sought input before making important decisions

Center of Excellence in Remote Sensing Education and Research (CERSER) Student Lead Trainer – Elizabeth City, NC (August 2016 – December 2016)
(*purpose – in italics*)

Trainer (August 2016 – December 2017)

- Lead 13 undergraduate students in teaching python programming language
